General overview

- I have an existing website for a small business (in the industry of professional service)

- Here is the demo of website frontend (no backend): http://mywebsitedemo.epizy.com

- Total 6 webpages: 5 static html webpages, and another 1 webpage with form submission functionality

- The backend is already built (but not shown in demo). Any backend work is **not** needed.

- Please re-design the existing website style and layout, to make the new website have a modern looking and appear more professional.

- must hand-code html/js/css, **cannot** use any CMS

Home Page with Comments

The logo image is 156x32 pixels. If necessary, you may change its size in your new design, but you should keep the aspect ratio of 156:32.

HOME	INTRODUCTION	HOW TO FLOW	FAQ	ABOUT US	SUBMIT FORM

Header Text 1:

Donec semper feugiat malesuada sidas.

Proin tempus interdum justo eu ultrices.

Nunc tincidunt fermentum sodales hicul.

Quisque nec turpis tortor, a sodales justo.

Header Text Placeholder A

Nulla ornare, nulla et egestas hendrerit, ipsum dui vulputate dolor, et ornare orci erat eleifend pede. Fusce eros libero, vestibulum non, elementum eu, suscipit eget, leo. Donec consectetuer tincidunt diam. Sed et mauris in ligula feugiat hendrerit. Cras neque

Header Text Placeholder B

Fusce pharetra convallis urna. Quisque ut nisi, nascetur ridiculus mus. Vestibulum vulputate metus in ligula. Ut at tellus. Suspendisse potenti. Mauris in orci eget risus condimentum tristique. Vivamus egestas, neque ac posuere egestas, ante justo malesuada nunc.

The name of the website has 38 letters. If you wish, you may change the size or place it in elsewhere in the new design, but you must keep it 38 letters, and place it in a very **prominent** position.

My thoughts about how to make the website name and the slogans in a **prominent** position:
The 38 letters can be put in the middle with a background image (I can provide the image).
The 3 slogans can be put underneath and has a typing-effect, like this:
https://www.creativebloq.com/how-to/create-an-animated-typing-effect
Note: These are just my thoughts. Feel free to propose better ideas and better effects.

The 3 pictures change every 5 seconds (with 3 text fields on right). The images are at 400x266 pixels. If you wish, you may change their size in your new design, but you must keep the 3 images' aspect ratio of 3:2. Keeping the fade-in animation effect is not required.

My thoughts: in the new design, the 3 photos and associated texts can be just stack vertically like this in the homepage. Feel free to propose better ideas.

Header Text 1:

Donec semper feugiat malesuada sidas.

Proin tempus interdum justo eu ultrices.

Nunc tincidunt fermentum sodales hicul.

Quisque nec turpis tortor, a sodales justo.

Header Text 2:

Suspendisse arcu tortor, porta in lobortis et

Tuscipit eget nisl. In in lacinia orci.

Nunc euismod neque et purus gravida aliquet.

Ecenas vehicula tincidunt eros sed vulputate.

Header Text 3:

Aliquam nibh felis, fermentum sit amet ultricies.

Maecenas vehicula tincidunt eros sed vulputate.

Sed leo nunc, luctus eget sollicitudin nec.

Vitae euismod dolor semper at. Aliquam ligula.

These are 4 icons. Each icon image is 50x50 pixels. If you wish, you may slightly change its size in your new design, but you must keep the aspect ratio 1:1.

Header Text Placeholder A

Nulla ornare, nulla et egestas hendrerit, ipsum dui vulputate dolor, et ornare orci erat eleifend pede. Fusce eros libero, vestibulum non, elementum eu, suscipit eget, leo. Donec consectetuer tincidunt diam. Sed et mauris in ligula feugiat hendrerit. Cras neque purus, mollis non, adipiscing ac, pretium eget, turpis. Cum sociis natoque penatibus et magnis dis parturient.

Header Text Placeholder B

Fusce pharetra convallis urna. Quisque ut nisi, nascetur ridiculus mus. Vestibulum vulputate metus in ligula. Ut at tellus. Suspendisse potenti. Mauris in orci eget risus condimentum tristique. Vivamus egestas, neque ac posuere egestas, ante justo malesuada nunc. Ut sagittis ultrices urna eget erat non. Neque porro quisquam. Curabitur suscipit.

Header Text Placeholder C

Fusce a augue. Nullam ac erat. Donec a ipsum. Nullam tristique leo id lacus. Sed sed pede non arcu ornare interdum. Maecenas justo elit, rutrum in, adipiscing id, laoreet in, libero. Curabitur scelerisque sodales justo. Pellentesque non sapien quis igula iaculis vestibulum. Aenean dignissim arcu gravida nisi. Tempor elit enim at massa. Duis ac nisl. Nullam pulvinar.

Header Text Placeholder D

Vestibulum lobortis. Cras risus ipsum, faucibus ut, ullamcorper id. Nullam non gravida purus dolor ipsum amet sit. Nec eleifend tincidunt nisi. Vestibulum lobortis. Donec at euismod nibh, eu bibendum quam. Lorem ipsum dolor sit amet, consectetur adipiscing elit. In volutpat scelerisque odio a accumsan. Ut eu porttitor risus. Integer quis blandit nisl.

These are 4 text fields. Each header text has about 25 letters. Each sub-header text has about 350 letters. I have added some placeholder texts.

Header Text Placeholder A

Nulla ornare, nulla et egestas hendrerit, ipsum dui vulputate dolor, et ornare orci erat eleifend pede. Fusce eros libero, vestibulum non, elementum eu, suscipit eget, leo. Donec consectetuer tincidunt diam. Sed et mauris in ligula feugiat hendrerit. Cras neque purus, mollis non, adipiscing ac, pretium eget, turpis. Cum sociis natoque penatibus et magnis dis parturient.

Header Text Placeholder B

Fusce pharetra convallis urna. Quisque ut nisi, nascetur ridiculus mus. Vestibulum vulputate metus in ligula. Ut at tellus. Suspendisse potenti. Mauris in orci eget risus condimentum tristique. Vivamus egestas, neque ac posuere egestas, ante justo malesuada nunc. Ut sagittis ultrices urna eget erat non. Neque porro quisquam. Curabitur suscipit.

Header Text Placeholder C

Fusce a augue. Nullam ac erat. Donec a ipsum. Nullam tristique leo id lacus. Sed sed pede non arcu ornare interdum. Maecenas justo elit, rutrum in, adipiscing id, laoreet in, libero. Curabitur scelerisque sodales justo. Pellentesque non sapien quis igula iaculis vestibulum. Aenean dignissim arcu gravida nisi. Tempor elit enim at massa. Duis ac nisl. Nullam pulvinar.

Header Text Placeholder D

Vestibulum lobortis. Cras risus ipsum, faucibus ut, ullamcorper id. Nullam non gravida purus dolor ipsum amet sit. Nec eleifend tincidunt nisi. Vestibulum lobortis. Donec at euismod nibh, eu bibendum quam. Lorem ipsum dolor sit amet, consectetur adipiscing elit. In volutpat scelerisque odio a accumsan. Ut eu porttitor risus. Integer quis blandit nisl.

Submit Form Page with Comments

Aenean commodo ligula eget elet?
Cum sociis natoque penatibus et?
Aenean massa ed yaur ad magnis?

First check minlength: 25. Then
check input for two words ABC and
EDF. If ABC and DEF are not input
by the client, then show an error
message, and this entire form
cannot submit.

This field will verify if the user has entered two words ABC and DEF. If not, then it will display error message, and users cannot submit the form. This functionality is already done by using jquery validator. Please keep this functionality.

Nam iaculis ante vel turpis rh... r. Etiam turpis nisl, aliquam et rhon...

ld re-designed.
ble to click a
 row. And

Requirements for <textarea>:
Look at this: https://www.appacademy.io/immersive/application/full-time
Go to "Employment History" section. Here is the screenshot:

Work Experience

Employment History ❓ *

I want to do something similar:
Make the caption above the <textarea>, so that the <textarea> is wider.

Nam iaculis ante vel turpis rhoncus ullamcorper. Etiam turpis nisl, aliquam et rhoncus at.

Your Education

I need this field re-designed. User should be able to click a (+) button to add a row. And users may click to add more rows of education. Each row must have the following: Year, University, Website, City, State, Major, Degree. All these are free text. Must validate user input.

I need this re-designed. User should be able to click (+) button to add multiple records of education. Each record must have the following: Year, University, Website, City, State, Major, Degree. All these are free text except for State which is a selector. After user added multiple education records, all of the education records must be **combined together** into **one string** for form submission. Do **not** separately submit each education record. This is because backend is already built (ajax/php/mysql backend is complete, so **no** backend work).

One of my thought about the "Your Education" section

Your Education

2016 Harvard Univ **[EDIT] [DELETE]**

⊕ (click to add more of your education)

Click will open lightbox

Year From   Year To   University Name

University Website   City   State

Major   Degree

Save

New lightbox will pop up and will look similar to this

Another thought about the "Your Education" section

Instead of lightbox, we could display groups of form fields. Here is a rough mock up:

Please enter your education details

[year from] [year to]
[university name] [city] [state]
[university website]
[major] [degree]

[+ Add more of your education]

click button to add/remove

Please enter your education details

[year from] [year to]
[university name] [city] [state]
[university website]
[major] [degree]

[year from] [year to]
[university name] [city] [state]
[university website]
[major] [degree]   [**DELETE**]

[+ Add more of your education]

Note:
You <u>may or may not</u> use lightbox, as long as your code can meet the requirement that user can add/edit/delete multiple education records. Then all of education records must be **combined together** into **one single string** for submission. **Don't** submit each individual field.

General Requirements for New Design:

- must hand-code html/js/css, **cannot** use any CMS
- must be responsive (both desktop and mobile)
- must be compatible with all major web browsers
- source code must be as simple as possible
- source code must be clean and easy to read
- source code must pass w3 validator syntax checker
- white background and professional clean looking
- keep existing text and images placeholders
- keep text font and style as much as possible
- font face must be Tahoma or Verdana

Suggestions for New Design Style:

- Here are some examples that look good to me:
- https://airtable.com/
- https://www.earthclassmail.com/
- https://bronto.netlify.app/
- https://www.virtual-dba.com/
- https://demos.dopetheme.com/html/esto/
- http://frontify.xyz/html/stbbiz/stbbiz/home3.html
- http://frontify.xyz/html/stbbiz/stbbiz/home6.html
- The above websites are just examples of some professional business website templates. Personally, I like these kind of "**styles**" which look **elegant & clean & professional**. However, you don't need to use any of these templates.
- Current images may be a little small. If you need larger images, please feel free to resize placeholder images (but keep aspect ratio). I can provide new images if needed.

In your bid proposal, please mention: "I have reviewed the PDF file and understand the requirements".

Thank you
